School System Launches Mobile App

The St. Tammany Parish Public School System is proud to announce the launch of its mobile app, an all-in-one information source for parents, students, employees and community members. The app provides easy access to important information and resources anytime and anywhere. School and teacher contact information, district and school news, lunch menus and school calendars, emergency push notifications and more are now accessible from smart phones and tablets while users are on-the-go. The app is free and available in both the Apple iTunes Store and Google Play Store. Search for St Tammany Public Schools in the app store or visit www.stpsb.org/app to download it today.
